

# 23. INTERNATIONALES KURZ FILM FESTIVAL

23<sup>rd</sup> INTERNATIONAL SHORT FILM FESTIVAL

06. – 11.06.2007

## New prizes and special programmes

There will be six Special Programmes at the Festival:

- **Focus on Lebanon:** Films from a country that might not exist on your cinematographic map
- **Work in Progress:** Will anybody work in the future and how will work look like?
- **What are the others up to? Steps in the Representation of the Other.** Ethnographic Films from the early early days of cinema up until now
- **Trac(k)ing Sound :** This programme relates to our new prize for innovative sound editing and sound tracks. In these films the auditive level is foregrounded.
- **Remixed Footage:** Early science films / Found Footage meet live experimental music.
- **20 years of Brevity.** Our brainchild, the *Three-Minute-Quickie*, celebrates its 20th anniversary. We'll be heading back to the mid-eighties screening winners and runners-up films from that category - full of creative nonsense that makes sense to us.

We're also glad to announce two new prizes at the Hamburg ShortFilmFestival.

The "**Music in Shortfilm Award**" by **GEMA foundation and represented by Rockcity Hamburg e.V.** will be awarded to best national and best international film soundtrack.

The prize money will be 2,000 Euros in both categories.

The **Pilsner Urquell Innovation Award**. Until now we've only had an audience award for the German competition. This year, thanks to our new sponsor Pilsner Urquell we can also award a jury prize, remunerated with 2,000 Euros.
